

How to Connect Krypton Mobile to Krypton POS

📞 Tel. Phone: 298-7364

Note: Please download and install Krypton POS from the provided link. And download and install Kmobile from clover app market using your clover devices.

- 1. Open Krypton BO > General Settings > Device Setup.
- 2. In the Mobile Setup, enable the Mobile Webserver.

*Note: This set up needs internet connection to download all necessary folders and files.

10. In the **Database** settings, enter the IP address for the **Host** and the database name that Krypton POS uses. Just leave the username, password and port with the same value.

- 11. After setting up, click the **check icon** in the upper left of the screen. Then click **Start**.
- 12. Kmobile will ask for you to register your device to krypton. Enter any device name that you want.
- 13. After that, Kmobile will take you to its home screen showing Table Ordering and Powerbill.
- 14. To let Kmobile print table orders to your kitchen printer, open Krypton BO.
- 15. Go to **General** settings, then click **Terminal Settings**.
- 16. Select the device name in the left side of the screen.
